EDUCATION

Samrat Ashok Technological Institute, Vidisha (M.P.) <i>Bachelor of Technology (Information Technology) — CGPA: 8.37</i>	Nov 2022 – June 2026 <i>Vidisha, India</i>
Mar Thoma Academy, Indore (M.P.) <i>Class 12 (CBSE), PCM — Percentage: 93%</i>	2021 – 2022 <i>Indore, India</i>
Mar Thoma Academy, Indore (M.P.) <i>Class 10 (CBSE) — Percentage: 97.2%</i>	2019 – 2020 <i>Indore, India</i>

ACHIEVEMENTS

- Qualified **GATE 2026** in **Computer Science (CS)** with **95.2 percentile**, ranking in the top **5%** of 211,020 candidates nationwide.
- Qualified **GATE 2026** in **Data Science & AI (DA)** with **94.6 percentile**, demonstrating proficiency in data science and analytical problem solving.
- Selected to represent the college at **Smart India Hackathon (2023, 2024)** after qualifying through internal hackathon rounds.
- Solved **400+ coding problems** across **LeetCode** and **GeeksforGeeks**, strengthening problem-solving skills and understanding of data structures and algorithms.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, SQL

Technologies/Frameworks: HTML, CSS

Core Concepts: Data Structures & Algorithms, Database Management Systems (DBMS), Computer Networks

Developer Tools: VS Code, Git, GitHub, Android Studio

Design Tools: Canva, Figma

PROJECTS

DhanTrax – Personal Finance Tracker [GitHub](#) *May 2026 – Present*

A web application for managing and tracking personal income and expense transactions.

- Built a personal finance tracking web application using **HTML**, **CSS**, and **JavaScript**.
- Implemented transaction management features including adding and deleting transactions through dynamic DOM manipulation.
- Integrated browser **localStorage** to persist transaction data across page refreshes and user sessions.
- Developed reusable rendering functions to dynamically update transaction tables based on user interactions.
- Structured application logic using modular JavaScript files to separate data management and UI functionality.

Personal Portfolio Website [GitHub](#) [Live](#) *Aug 2024*

- Developed and deployed a responsive portfolio website using **HTML**, **CSS**, and **JavaScript**.
- Showcases projects, achievements, technical skills, and professional profiles through a responsive and user-friendly interface.
- Deployed on **Netlify** for public accessibility and project presentation.

TripBozo – Travel Recommendation Platform [Live](#) *Jan–Apr 2025*

- Collaborated in a team project focused on building a travel recommendation platform for international travelers.
- Contributed to UI planning, design discussions, and feature ideation during project development.
- Participated in project testing, feedback collection, and overall development activities.

POSITIONS OF RESPONSIBILITY

- **GeeksforGeeks Campus Ambassador (2024–2025):** Represented GeeksforGeeks on campus and promoted coding-related activities and student engagement initiatives.
- Encouraged participation in coding contests, technical events, and learning programs among students.
